ADVANCED HEALING IN ROTATOR CUFF REPAIR WITH REGENETEN

Faculty
Ian Lo (CA)

Faculty
Ettore Taverna (IT)

18.00h - 19.00h
INDUSTRY SESSION

DESCRIPTION

During this workshop, the faculty will discuss common issues presented with the current practice of Rotator Cuff Repair and will explore the latest product options to help improve the healing rate, from vented bone anchors to BioInductive Type 1 collagen implants.

PROGRAM

- 18:00-18:05 h **Welcome & Introduction**
Ettore Taverna (IT)
- 18:05-18:25 h **Full Thickness Rotator Cuff Repair: Current Practice Vs Advanced Healing Options**
Ian Lo (CA)
- 18:25-18:45 h **Rotator Cuff Repair: Advanced Healing with the REGENETEN BioInductive Implant**
Ettore Taverna (IT)
- 18:45-18:55 h **Q&A**
Ian Lo (CA)
Ettore Taverna (IT)
- 18:55-19:00 h **Meeting Close**

1st SECEC VIRTUAL CONGRESS

SEPTEMBER - DECEMBER 2020

Wednesday, November 25

CET timezone

ROOM 1

MASSIVE CUFF TEARS, IS IT WORTH THE EFFORT?

Moderator
Pascal Boileau (FR)

Faculty
Clara Azevedo (PT)

Faculty
Nicolas Bonneville (FR)

19.15h - 20.15h
INDUSTRY SESSION

DESCRIPTION

How to treat a massive cuff tear is still a controversial topic. There are a significant amount of different options and surgical treatments continue to evolve to offer better options to the patients that need a quick and/or mid-long term solution.

In this session, moderated by Prof. Pascal Boileau (France), we will have two presenters, Prof. Nicolas Bonneville from France and Dr. Clara Azevedo, from Portugal, walking us through Arthroscopic SCR. Prof. Bonneville will present Arthroscopic SCR using biceps tendon while Dr. Azevedo will explain Arthroscopic SCR using Fascia Lata Autograft.

The attendees will have the opportunity to ask questions and provide their perspective about the topics discussed.

PROGRAM

19:15-19:20 h	Introduction Pascal Boileau (FR)
19:20-19:35 h	Arthroscopic SCR using biceps tendon Nicolas Bonneville (FR)
19:35-19:45 h	Questions Pascal Boileau (FR)
19:45-20:00 h	Arthroscopic SCR using Fascia Lata Autograft Clara Azevedo (PT)
20:00-20:10 h	Questions Pascal Boileau (FR)
20:10-20:15 h	Final discussion Pascal Boileau (FR)

CUTTING-EDGE OF GLENOID BONE LOSS WITH LIVE DISCUSSION

Moderator
Matt Ravenscroft (UK)

Faculty
Markus Scheibel (DE)

Faculty
Philip Moroder (DE)

Faculty
Abdul-ilah Hachem (ES)

20.30h - 21.30h
INDUSTRY SESSION

DESCRIPTION

Recurrent shoulder instability with glenoid bone loss is a topic which is frequently discussed, and the most effective treatment is still up for debate. We are honoured to host 4 of the world's leading shoulder experts, who have made huge advancements through their knowledge and experience. A new and innovative "metal free" cerclage fixation technique will be presented, which is showing outstanding short-term results, and the discussion will focus on the various factors which help to make these types of procedures successful. We look forward to you joining us for this unmissable event!
